

Big Data Analytics

Eight Assignment

Deadline: 16 November 2022

1. Replicate Assignment 7 via SVM focusing as an outcome on the «sentiment» variable
2. Use the training-set of Assignment 7
 - As an outcome focus on the «polite» variable
 - Run a 6-fold cross-validation using the 3 different ML algorithms discussed in class so far
 - Compare the results you get
 - Select a ML algorithm and justify the choice of your hyperparameters
