

# *Big Data Analytics*

## Course Assignment

UNIVERSITÄT  
LUZERN

# Deadline: 9 April 2022

This is a *volunteer assignment!*

Make any query you like on Twitter

1. Run some descriptive statistics on the data you retrieved
2. Run an unsupervised or a semi-supervised classification algorithm on such data
3. Run also a sentiment dictionary on them (or any other dictionary that you want to apply)
4. Comment your results

You can also choose to do 1, 1+2, or 1+3.

Send to my email ([luigi.curini@unimi.it](mailto:luigi.curini@unimi.it)) a pdf file with the results (that also include: scripts; tables/graphs; comments)
